3. ☐ Project Outreach

The Acting Deputy Director of Security announced that the first visitation day for Agency families will take place on Saturday, 24 September 1977. The program will include an address by the DCI, an audio visual presentation on the history and current status of the intelligence profession and a collection of exhibits that will be located in selected areas along the first floor corridor.

4. (U) "Good Morning America"

☐ advised that the ABC television show "Good Morning America" will devote its entire 19 September 1977 production to the Agency. The program will feature a "live" interview with the DCI and extensive film clips of the Headquarters compound.

4. ☐ FY78 MBO Program

The Office of Security has submitted to the DDA three proposed MBO Objectives for FY78. Although this represents a reduction in the number of Objectives we have traditionally carried, we believe these Objectives to be selective, high quality tasks of significant import to the Office of Security and the Agency. Our proposed Objectives pertain to the field reinvestigation and repolygraph program, the industrial security audit program and the upgrading of the Security Automated Name Check Activity (SANCA).

5. ☐ Special Agents Course

A three-week Special Agents course began on 6 September. A total of 10 investigator trainees are in attendance. Upon completion of the course each trainee will receive assignment to one of our ☐ offices.

6.            DCI Security Committee

A report on investigative standards prescribed in DCID 1/14 was reviewed by the DCI Security Committee (SECOM) on 7 September. As a result of that review the SECOM has upheld the validity of investigative standards set forth within the Directive and will recommend to NFIB continuation of such standards with the provision that they be reviewed again in one year.

7.            Briefcase Checks

An incoming briefcase inspection on 6 September netted 15 incidents involving the unauthorized removal of official data from Agency facilities.
